

Syed Sibran Bukhari

DOB : 01-04-2000

Senior Associate

Supply Chain and Material Planning professional experienced in managing large parts portfolios, optimizing inventory, and improving demand-supply alignment. Skilled in APS (Oracle), IMPACT, Power BI, and Smartsheet, with a focus on lead-time adherence, resolving supply issues, and enhancing planning accuracy. I thrive in fast-paced environments and aim to contribute to efficient, data-driven, and high-performing supply chain operations.

Experience

August 2024 – October 2025

Genpact

Senior Associate (Material Planner – GE Aerospace)

Manage supply planning for 1,200+ GE Aerospace engine parts, ensuring full lead-time adherence across pre-processing, processing, and post-processing stages. Optimize inventory by addressing early, late, and excess supply while maintaining stock within target levels. Analyze reports to identify and resolve delays, driving data-based supply chain decisions. Utilize APS (Oracle), IMPACT, Centerpiece, PAB, and Smartsheet to improve planning accuracy and real-time visibility. Build strong relationships with global suppliers to ensure reliable delivery and collaborate closely with Master Scheduling, Forecasting, Fulfillment, Suppliers, and Buyers to align supply plans with business objectives.

March 2022 – June 2022

Flipkart

Senior customer support executive

Handled customer issues and resolved complaints efficiently, supporting delayed deliveries, replacements, and returns through case analysis and effective solutions. Performed compensation assessments to ensure fair outcomes and focused on customer retention by building trust and encouraging repeat purchases. Demonstrated strong communication skills and consistently performed well under tight deadlines in a fast-paced environment.

Internships

August 2023 – September 2023

Compass Logistics Pvt. Ltd. Bengaluru, India

Operations Trainee

Supported Kuwait operations by managing international Sea and Air logistics, handling end-to-end job initiation and closure with accurate documentation and timely processing. Managed 30% of international freight quotation requests within a month, preparing tailored quotations for global clients. Monitored shipment progress, issued weekly status reports, and ensured smooth coordination through continuous communication with consignees and international agents. Actively participated in on-the-job training, collaborating with supervisors and adapting quickly to new systems and tools to support daily logistics operations effectively.

February 2023 – March 2023

Delta Infralogistics Worldwide Ltd. Mangalore, India

Logistics Trainee

Assisted in coordinating logistics operations for client shipments, performing research on industry best practices to improve supply chain efficiency. Prepared detailed reports on shipment status and inventory levels to support decision-making, and collaborated with cross-functional teams to ensure timely and accurate delivery.
